

I joined the Governing Body in November 2016. My background is in Business Development/Delivery, Project Management and Governance. I have experience of maintaining standards, driving performance, managing risk and general business acumen. I'm employed by

Cheshire East Council, and hold the position of 'Business and Governance Officer' within the authorities Public Health Team.

I currently have a daughter who attends Mablins Lane and have a strong belief in education. Education plays a pivotal role in the development of an individual and helps build character. It is essential that a school takes full advantage of each child's ability, helping them set goals and achieve their desired objectives.

As a school governor, I have the responsibility to ensure clarity of vision, ethos and strategic direction for all at Mablins Lane.
